The Somerset Collection

The Somerset Collection by Memoire Design™

Inspired by a shared English heritage, the enduring charm of the countryside, and a sense of relaxed elegance, Somerset marks the first design collaboration between mother and daughter, Robyn Bailey and Lauren Mull. Distinctive silhouettes and intricate woven details bring a fresh perspective to traditional forms.

The collection explores woven design through a fresh perspective, pairing graceful silhouettes with thoughtful details and the craftsmanship that has defined Memoire Design™ for nearly five decades. From sculptural seating to distinctive tables and accents, each piece is designed to stand beautifully on its own while living effortlessly alongside the rest of the collection.

Timeless but never expected, Somerset is a collection designed to feel collected over time.

Somerset Tray | MB5273

Thoughtful details bring the Somerset Collection together. Signature open-ring motifs and graceful woven forms give each piece a distinctive character, balancing traditional craftsmanship with a fresh, refined point of view.

Designed for effortless entertaining, the Wisteria Bucket brings woven texture and timeless style to every gathering. Crafted from weather-resistant materials for indoor or outdoor use, it features a polished metal bowl insert to keep bottles chilled. Its sculptural woven base makes it beautiful enough to leave on display, or style it with flowers or greenery for a fresh, striking centerpiece.
